**Kohler® Color Coordinates™**

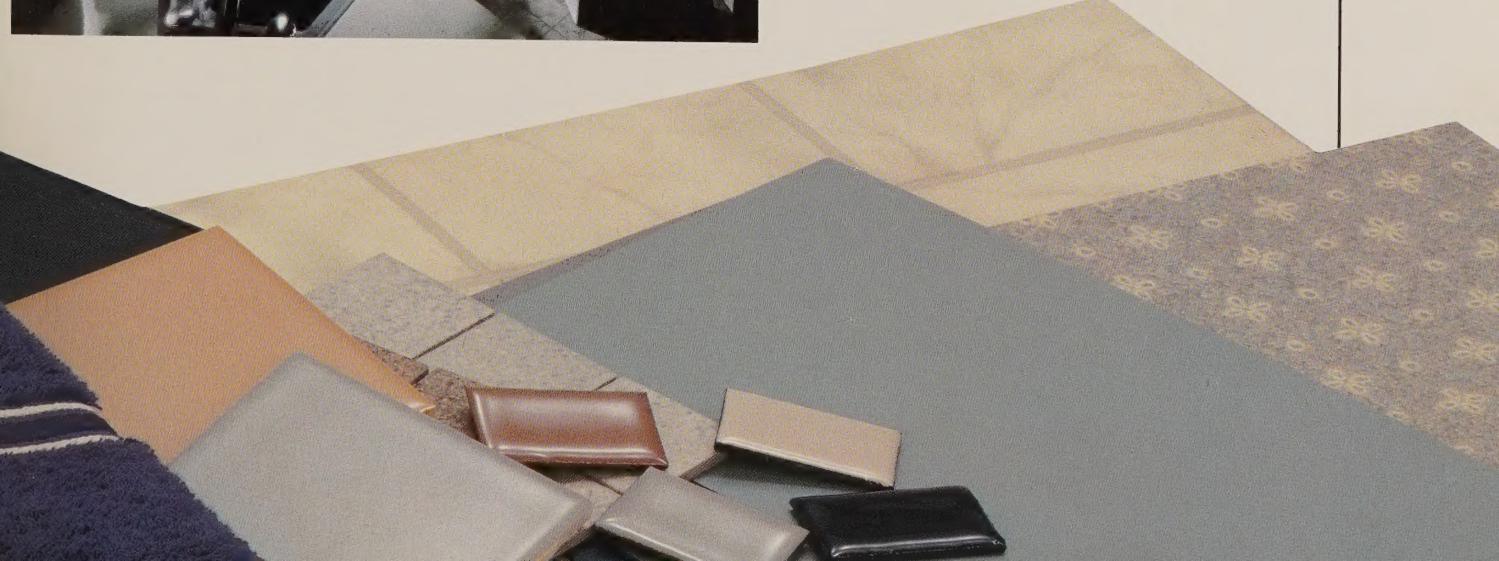

A group of leading manufacturers has teamed with Kohler to offer Kohler Color Coordinates, a system for risk-free and simple decorating.

The system starts with six families of complementary Kohler fixture colors. Using these families as guides, Kohler's partners color-coordinate their bath products with Kohler fixtures. Now plumbing fixtures and bath products — like floor and wall coverings, bath cabinets, window treatments, paint and ceramic tile — are all in harmony.

Each color family is your decorating palette to create a professional color scheme. From your favorite Kohler color family, select a primary tone for the fixtures. Then, select secondary hues and accents for the bath products.

Kohler colors. Subtle pastels that blend softly. Striking tones that are bold and vibrant. Reflecting your persona. Expressing your style. It's easy with Kohler Color Coordinates.

For more information on Kohler Color Coordinates, see your Kohler Dealer or Distributor.

HIGH FASHION**REGULAR**

Colors shown in this booklet are illustrated in ink. There may be variations in color fidelity between these samples and actual plumbing fixtures. Kohler Co. reserves the right to make changes in product characteristics, packaging or availability at any time without notice.
